The Maryland State Numismatic Association (MSNA) annual convention/Atlantic Rarities Coin Exposition (ARCE) at the Baltimore Convention Center just ended. Our annual meeting, held on 16 May, was a real pleasure for me. We had a great meeting and I had the privilege to recognize some individuals who have had a profound impact on the Maryland Token & Medal Society. As we approach our twentieth anniversary next year, it seemed only fitting to honor some of the folks that have given a lot of time and energy to make our organization what I truly believe to be one of the best state level operations of its kind. The following individuals were honored with the presentation of a certificate and a specially designed MD TAMS note called an "ATTABOY BUCK". A citation was read delineating the major accomplishments of the individual. Those honored in the Presidential Series were: Mill Hajek, Bob Ruby, Russ Sears, Bill Miller, and Bryce Doxzon. Those honored in the Merit Series were: Jane Sears, Pete Burris, Jan Pugliese, Jim Boswell, and Will Mumford. Yours truly was fortunate to also receive the honor as part of the Presidential series. There will be more in a forthcoming journal about the "ATTABOY BUCKS".

We also presented our annual literary awards. Jane Sears received the award for the best journal article while R. Lee Burton Jr. received the runner-up award. George Chevallier Jr. was the best new author. We also presented Jim Boswell with the membership award for recruiting the most new members. All these folks were presented with a framed certificate and a U.S.S. Constellation commemorative medal. One of our members, Bryce Doxzon, was presented with the Millard Hajek award at the MSNA Convention for the best exhibitor in the category of tokens and medals. This award is given yearly by Maryland TAMS. Bryce also received a framed certificate and a Constellation medal.

Since this was our annual meeting, there were several giveaways. Those attending the meeting received a pack of three elongateds. Each had the 1998 MSNA convention design as the obverse while the reverses reflected the items rolled; a 1998 Lincoln cent, a 1998 Jefferson nickel, and a pickers check (JPK 1 - CORN) (S#770-K6). All members will receive a giveaway with their journal - an elongated pickers check with the 1998 MSNA design. The pickers check is J.A.N.P. Co. Edgemont Md (S#330-N5).

Just a reminder that the next BANC Coin Show will be held on Sunday 21 June at the Cromwell Bridge Holiday Inn. Please try to attend and show your support. Our next MD TAMS meeting for July/August has not yet been scheduled - a special announcement will be sent soon.

FEISEL'S CATALOG OF PARKING TOKENS OF THE WORLD

FIFTH EDITION 1998

BY Joseph V. Pernicano

Book Review by Curtis H. Judge

Joseph V. Pernicano has just released the fifth edition of Feisel's Catalog of Parking Tokens of the World. For a number of years, Joe has taken over the duties of cataloging new issues and finds in the parking token collecting field. The new edition is an improvement over the fourth edition in that it is a hardbound volume incorporating many new listings and several other related topics of interest to the parking token collector. The reference is 338 pages in length and printed on heavy bond paper that will withstand years of usage. This binding is a substantial improvement over the 1989 4th edition's card covers.

Listing of the individual tokens is done by the familiar format developed by the American Vecturist Assn. in it's Atwood-Coffee catalog of transportation tokens. Each token is assigned an individual catalog number based on state and city location and type to make identification and cataloging easy. Complete obverse and reverse descriptions, metallic composition, size and other pertinent data is listed. Many thousands are listed from the U. S. and over twenty foreign countries. A locator index is provided for easy attribution of maverick issues. This volume is the definitive reference for this area of collecting interest.

The latest edition brings the "pricing" issue up to date with real world valuations on the individual tokens. Minimal catalog valuation is what an operator charges for the token in current usage. Maximum catalog value is what could be reasonably expected to be realized in a sale between knowledgeable collectors based on an experienced rarity factor. Price valuations have jumped considerably higher than those of past editions.

The fifth edition is deficient in one critical area. It lacks the photo plates of numerous tokens that were included in the fourth edition. The reason for eliminating the plates is not detailed by the author, the reviewer assumes that cost was a factor. Limited edition reference works are very expensive to have printed, and to keep this one at a reasonable price, the photos were probably eliminated. Keep your 4th editions for this data.

Autographed copies are available directly from the author.

EXONUMIA ABOUND AT MD TAMS 1997 ANNUAL MEETING

By Millard W. Hajek

What a banner weekend for collectors of exonumia at the 1997 Maryland Tams Annual Meeting held in concert with the Maryland State Numismatic Association's ARCE! Prior to the Coin Show, MSNA distributed two different wooden nickels and an elongated cent to help advertise the show.

MSNA
25th ANNIVERSARY

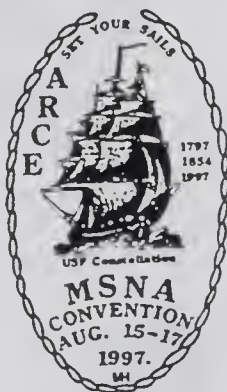

COMMON
REVERSE

BALTIMORE CITY
200th ANNIVERSARY

The wooden nickels have a common reverse while the obverses celebrate the 25th Anniversary (1972-1997) of MSNA and the 200th Anniversary (1797-1997) of Baltimore City's Incorporation. The wooden nickels were designed by Millard W. Hajek and 1000 each manufactured by Communicate It Ink, Co. of San Antonio, Texas.

TYPE I

TYPE II

The Type I elongated cent distributed prior to the Coin Show shows the U.S.S. Constellation in full sail while Type II shows bomb bursts to the upper left and middle right of the ship. Visitors who stopped by Ray Dillard's table at the Coin Show could pick up the Type II design which he rolled for visitors from their pocket change. A total of 1500 elongateds of each type designed by Millard W. Hajek were rolled along with 25 4-coin sets.

A postal cancellation illustrated here was available to collectors for each of the show's three days at the U.S. Postal Station. Millard W. Hajek was the designer too.

The **Maryland TAMS Annual Meeting** also offered some great souvenirs for exnumia collectors. In addition to the **Type II elongated design** rolled on an amusement token, **Maryland TAMS** gave each member and guest in attendance a "**Sticker Coin**" with **HAVE FUN COLLECT / I.O.U. / MD TAMS / ONE / TOKENS & MEDALS** on yellow paper adhered to a 1997 U.S. Quarter. A similar "**Sticker Coin**" on hot pink paper was mailed to each **Maryland TAMS** member in good standing along with the Fall, 1997 issue of the **MARYLAND TAMS JOURNAL**. Also, member **Bill Stratemeyer** passed out his personal elongated cent celebrating his **25th Wedding Anniversary**. Available at the Coin Clubs Table during the show was an **encased penny** commemorating the **25th Anniversary of MSNA**. A total of 800 encased with 1997 cents, 100 with 1972 cents and 100 with 1972-S cents were issued. The encased cents were made by Mintage Masters, Inc. of Kewaunee, WI. All of the above are illustrated below.

Available in the Convention Center Lobby during the Coin Show near the Registration Desk, visitors could pick up medals and posters celebrating the Bicentennial of Baltimore City.

What a great weekend for collecting tokens and medals to add to your collection!

SUPER MARKET CHECKOUT STICKERS

Part II

By Wallace Stone, R-47

In the last issue of our journal the initial text of the fruit and produce stickers covered a period of two and a half months of collecting stickers from local supermarkets. Since that time until the first of May, 1998 the quest has continued with a large number of new additions of exhisting stickers and a few new seasonal items which will be with us until the growing season of this particular fruit or vegetable has reached its maturity and is no longer a staple item on the grocers shelves.

It has been noted that of the number of new stickers encountered, a number of them now are produced out of paper and are now lightly cut into four sections, making it hard to peel them off the skin of the fruit. Most of the original stickers listed have been of a light plastic material. The more recient finds have been a little bit larger either in length or diameter if indeed there has been a change.

The stores listed are all located in the Annapolis, Md area which we made purchaces of the fruits and vegetables, Giant Food, Safeway, Food Lion, Shoppers Food Warehouse, Graul's, Fresh Fields Market, Valu Food.

Below are listed a few of the fruits and vegetables with the larger number of sticker varieties encountered at the time of writing this for the Journal.

DRINKING CUPS

Recently, I acquired an addition to my Maryland token collection that featured on the reverse **INDIVIDUAL DRINKING CUP CO. / GOOD FOR / THIS / LOCATION / ONLY / N.Y.** and on the obverse **PROPERTY OF / ANNE / ARUNDEL / COUNTY**. As luck would have it, my new token is different than the one listed under Annapolis in our **Maryland Merchant Tokens** book by David E. Schenkman, so I've added another unlisted token to my collection.

This new token jogged my memory about other **DRINKING CUP** tokens, so I searched

through my collection for other similar drinking cup tokens. Currently, I have been unable to find out anything about the **Individual Drinking Cup Co. of New York** but that company is the common design on the reverse of my **DRINKING CUP** tokens with the exception of a token for the C & O Lines.

Illustrated below are all the **DRINKING CUP** tokens I could find in my collection plus the ones listed in our **Maryland Merchant Tokens** book. Do you have any other **DRINKING CUP** tokens in your collection to add to this list?
